Red Hat® Linux® ENTERPRISE EDITION optimised for Oracle8*i*™

A Unique Channel Opportunity

Today's resellers and system integrators know that meeting market demand for Web-centric systems requires speed, savvy, the right technology and partnerships.

Red Hat Linux Enterprise Edition for Oracle8*i* is an optimised version of Red Hat's award-winning operating system that lets you give your customers choice. Enterprise Edition for Oracle8*i* delivers superior performance and reliability, top-quality applications and freedom from the restrictions of proprietary environments. Red Hat also integrated leading-edge Web technology components such as Motif™ 2.1 and a Java Runtime Engine™, plus enhanced support and maintenance services into Enterprise Edition for Oracle8*i*.

This robust package has been tightly integrated with Oracle8*i*, the leading relational database management system for e-business. The combined Red Hat/Oracle platform is ideal for small to mid-sized businesses and departments deploying Web-based applications on a local or a global scale.

An Awesome Channel Market Opportunity

Enterprise Edition for Oracle8*i* offers unique benefits to the reseller and integrator community in enabling you to provide timely, innovative solutions to your customers.

- Enterprise-level capabilities expand your target market. This optimised product, combined with the strength of Oracle's market-leading Web database technology, provides an excellent platform for critical e-business and enterprise applications.
- Higher margin for services through cost-effective products. Lower product costs means increased opportunity for your value-added services, without breaking the customer's budget.
- Strength of the Oracle8*i* database. Oracle8*i* is the leading relational database for e-business. Red Hat and Oracle have worked closely to optimise their combined product for high-volume Web computing and enterprise applications in an open environment. Enterprise Edition for Oracle8*i* has also received Oracle Certification, proof of its successful functionality and high quality.
- A cost-effective computing environment. Enterprise Edition for Oracle8i runs on the Intel platform — the server standard for a large number of businesses. Deploying the Enterprise Edition for Oracle8*i*, you can effectively leverage your own existing Intel hardware investment as well as that of your customers.
- World-class support. Enterprise Edition for Oracle8*i* comes bundled with full year of technical support (per system, standard hours) and 12 months of priority online access for software updates.

A Unique Channel Opportunity (c o n t i n u e d)

Why Red Hat?

Red Hat is the definitive market leader for open source software, with **65%** market share and growing. Our products are consistently recognised, winning awards from leading computing and business magazines such as *InfoWorld, PC Magazine, Red Herring and Business Week.*

We offer **the greatest concentration of Linux** and **open source expertise anywhere,** including many of the industry's top kernel developers, engineers and technicians.

We provide worldwide delivery, technical support, and proven training and certification programmes taught by leading Linux experts. And we maintain extensive strategic and technical partnerships with other market leaders — Oracle, Apache, IBM, Netscape, Computer Associates and more — to support the best applications in Web computing.

Red Hat is the one company to meet all of your open source requirements, so you have more time for your customers.
