Red Hat® Linux® ENTERPRISE EDITION optimised for Oracle8*i*™

Features-At-A-Glance

www.europe.redhat.com

	FEATURE	FUNCTION	BENEFIT
Product Features	Oracle® Certification	Fully tested, certified and supported by Oracle and Red Hat	Ensures a reliable and stable database server platform
	Motif™ 2.1 Integration	GUI libraries for Oracle development and administrative tools	Provides the complete Oracle interface environment
	JRE™	Includes a complete Java execution environment	Allows efficient configuration of Oracle databases using Oracle's Java configuration tools
	Development Resources	Popular development languages such as C, C++ and Perl are included with Red Hat Linux and integrated with Oracle libraries	Easily create new Oracle database applications with included tools
	POSIX™ Environment	Familiar UNIX commands and common administrative framework	Eases transition for current UNIX DBAs
Operating System Enhancements	Raw I/O	Direct I/O to disk without cache overhead	Increase Oracle disk throughput resulting in faster database access and more efficient memory use
	Big Memory	Increase maximum addressable memory to 4GB	Allows Oracle8*i*™ to take full advantage of available memory resources for complex database functions
	64-bit File I/O	Allows access to files greater than 2GB in size	Allows large scale database implementations
	Vectored I/O	Ability to write to a contiguous file location from multiple buffers	Reading and writing from databases uses significantly less CPU bandwidth
	SMP Scalability	Makes use of up to eight processors per server	Maximises database performance on a single machine
	Remote Management	Enables administration of multiple machines from remote locations	Allows corporate systems administrators to effectively run and manage their systems without having to be on-site
	Intel Compatibility	Able to utilise standard hardware	Provides a better price/performance return
Services and Support	One Year Technical Support	Per system support during standard hours	Provides fast access to Red Hat experts for configuration and troubleshooting of Oracle8*i* implementations
	Code Updates and Maintenance	Priority access to Red Hat's FTP site to download updates	Fast, dependable, priority access for system maintenance certified by Red Hat and Oracle
	World Class Support	Options include on-site consulting, developer support, and training and certification	Red Hat service centres around the world provide quality resources to meet a customers' localized requirements
